

EMPLOYMENT ACCESSIBILITY FOR STUDENTS

Employment Accessibility for Students Program Provides Employment Opportunities for Post-Secondary Students and Graduates with Disabilities!

The Employment Accessibility for Students program enables individuals to find full or part-time work!

We ensure that each and every candidate sent to you is job ready. Individuals have filled positions in fields such as finance, insurance, real estate and leasing, professional, business and educational services, health care and social assistance, information technology, and customer service/retail. Below are a few examples of what clients and employers say about us.

Customer Service

The Employment Accessibility for Students client was hired by our Toronto restaurant as an Apprentice prep cook and he demonstrated himself to be an employee with a strong work ethic and a great desire to learn. He successfully completed Prep Cook training with the restaurant and performed 30% faster compared to his colleagues. Due to his strong work ethic and great capabilities he is now in charge of Prep Work.

Educational Services

The Employment Accessibility for Students program was recommended for our company's hiring needs when we needed a tutor with very specific skills on a very short notice. The tutor we hired was exactly what we were looking for – skilled, responsible and punctual. She is very responsive to our clients needs and easy to work with.

Accounting

Being a GGA level 5 Employment Action client I have obtained a 'senior accounting officer' role at a major 'Big 5' bank. In this position, a strong knowledge of security operations was required to be able to analyze and process various transactions. This opportunity strengthened my accounting and finance knowledge as I dealt with different types of investments: GICs, Canada Savings Bonds, mutual funds, t-bills and stocks. Through this experience, I have improved my problem-solving and quantitative skills as I had to consistently maintain accuracy in calculating figures and amounts.

Financial Services

I was looking for assistance that would allow me to obtain a position in the finance or banking field. Due largely to my high motivation and drive to succeed I secured a billing support role at a major Toronto insurance firm. Since that time my duties and responsibilities expanded and I am now a full-time employee.
