

Thank-you to Humber College for inviting JobStart to participate in their Transition to Work Job Fair (Employment Success for People with Disabilities). JobStart was delighted to have the opportunity to meet with current and graduating students to support their search for employment opportunities. Employment search can be a challenge at the best of times, but for persons with disabilities the challenges can be numerous. With the support of institutions like Humber and the work being done at agencies like JobStart we hope to enable individuals with disabilities to access meaningful jobs in their chosen career field. Thanks also to the many employers supporting the drive to employ persons with disabilities.

If you are an employer who would like to learn more about JobStart's employment support programs for persons with disabilities, please contact **Mary McAuliffe, Job Developer @ JobStart , 416-231-2295 ext. 4251**

Mary McAuliffe (Job Developer @ JobStart) with Christine Colosimo, Career Advisor at Humber College and Jeff Szmyr, Accessibility Consultant at Humber College
